turned to Ogden to make this his per-  
manent home.

The Ogden veterans and their  
friends who will attend the national  
G. A. R. encampment at Los Angeles  
next week will leave at 9 o'clock this  
evening in a special tourist car. It is  
anticipated that at least 30 will join  
the excursion.

## 'ARMY' GIRL SAW MURDER

New Witness Found In  
Rosenthal Case—Hayes  
on Stand

New York, Sept. 6.—The relation-  
ship between Mayor Gaynor and the  
New York police department; the  
mayor's attitude on the cities so-  
called vice and excise problems, and  
the extent to which the department  
followed his public declarations of  
his attitude, formed the basis of a  
relentless cross-examination under-  
gone by Police Commissioner Hayes  
today in the trial of Cornelius G.  
Hayes, an inspector, suspended on  
charges of making false statements  
during an interview on the Rosen-  
thal murder reflecting on the com-  
missioner.

Thomas Thatcher, Hayes' counsel,  
thwarted in his efforts to read into  
the record the mayor's utterances on  
the vice problem, finally gained  
recognition from the trial commis-  
sioner, Douglas McKay by this de-  
claration:

"I am merely trying to prove that  
Mayor Gaynor's policy was one un-  
der which the social evil was recog-  
nized as an unconquerable problem  
which had to be endured, but that the  
evil had to be kept in front of our  
ward decency; that in the failure of  
Inspector Hayes to raid disorderly  
houses he was merely reflecting this  
policy and that any orders issued to  
him by Police Commissioner Waldo  
were directly in violation of that policy."

Cross Examination.  
Mr. Thatcher was then permitted  
to proceed with his cross-examina-  
tion along the lines he desired.

"Does not Mayor Gaynor direct  
your policy toward vice?" he asked  
Waldo.

"He does not," snapped the com-  
missioner.

"Has Mayor Gaynor ever instructed  
you how to deal with disorderly  
houses?"

"He has never given me any in-  
structions on that subject."

"As a matter of fact, you didn't  
expect Hayes to raid disorderly  
houses within his district, did you?"

"I expected him to raid every dis-

orderly house as to whose operations  
he could obtain evidence."

"You knew, didn't you, that disor-  
derly houses had flourished for six  
months in Inspector Hayes' district;  
that these houses were operating ev-  
ery day and that they were not being  
raided?"

"Yes, I knew it. I knew that disor-  
derly houses had been flourishing  
in that district for a year. But I  
presumed that Inspector Hayes was  
making every effort to close them  
up."

## OGDEN PEAK IS NAME OF THE MOUNTAIN

"Ogden Peak" is the name by  
which our local observatory should  
be known rather than Observatory  
peak, as it has been called for many  
years. Rev. Frank G. Brainerd, in  
searching among the government  
publications of fifty years ago, dis-  
covered today that there is no foun-  
dation whatever for calling the prom-  
inent, "Observatory peak," that name  
having been used solely by the pub-  
lic in referring to the government's  
observatory monument at the top of  
the peak and to distinguish one from  
another of three established points of  
triangulation.

The first survey point was known  
as the Salt Lake base line, which ex-  
tended for about seven miles in the  
vicinity of Hooper and was marked  
by a stone monument at each end.

The second point was located at the  
old railroad station, the elevation of  
which was given as 4,312 feet above  
sea level. Another point was es-  
tablished at a height of 4,390 feet  
and was known as Ogden Observa-  
tory. It is believed that this was lo-  
cated somewhere on the brow of the  
bench above the Reed hotel, al-  
though some are of the opinion that  
it was located at the City hall. As  
there is practically a water level  
from the City hall to the Union sta-  
tion, the first mentioned theory is  
regarded as the more plausible.

It is made quite clear that the top  
of the mountain was formerly known  
as Ogden peak and that only a con-  
fusion of terms and later ignorance  
of the facts has led to the error of  
calling it Observatory peak.

The government's figures for the  
altitude of the peak are 9,592 feet  
above sea level.

In ascending the peak recently Mr.  
Brainerd and Harry Beaudard of the  
forest service established the altitude  
of several points passed on the trail.  
At the mouth of Taylor's canyon the  
altitude was found to be 5,100 feet  
and at Malan's point, 6,700 feet, a  
difference of 1,600 feet.

Another interesting altitude es-  
tablished was that of which flows out  
of the mountain side at a point usu-  
ally designated by the amateur  
climber as "just below the peak."

The spring is 8,700 feet above sea  
level or nearly 900 feet below the  
point.

The Ogden Publicity bureau is  
making a thorough investigation to  
determine the proper name for the  
mountain and the general opinion  
prevails that it will henceforth be  
known and advertised as "Ogden  
peak."

## FASHION SHOW ASSURED SUCCESS

That Ogden is to have her first  
"Annual Fashion Show" was assured  
at an enthusiastic meeting held at  
the Weber club today at noon. Most  
every business house in Ogden was  
represented in the gathering and an  
organization effected to arrange the  
details.

The show will be held on the last  
Friday and Saturday of this month,  
which is the 27th and 28th. It is pro-  
posed to enlist the interest of every  
business house having a show win-  
dow in the business district and en-  
courage them to put in the very best  
windows possible for the occasion.

Many unique suggestions were made  
for windows which will have an un-  
usual pulling power. It is the in-  
tention to have the city put on a  
holiday appearance for the two eve-  
nings of the show. The music will  
be supplied by the largest bands it  
is possible to secure in town; red  
lights and fuses are to be burned.  
During the two hours of the show  
each evening and other means of  
making the streets attractive. This  
with the fact that every window will  
be well worth seeing assures the fact  
that the streets will be filled with  
one of the greatest crowds seen in  
the business district for many years.

An excursion committee will con-  
fer with the railroads into Ogden  
with the hope of bringing to Ogden  
a great number of the residents of  
the cities and immediate communi-  
ties.

Those present were: Dr. H. M.  
Rowe, Hyrum Pingree, N. J. Tanner,  
C. P. Carlson, A. R. McIntyre, John  
Hurst, John Cullen, Gus Wright, J.  
D. Larson, Isaac Richardson, Mr.  
Kern, Joseph Thomas, Arthur Kuhn,  
and Henry Rosenbluth.

Gus Wright was elected chairman  
of the executive committee with pow-  
er to appoint sub-committees for the  
several features.

## AMES IS FOUND NOT GUILTY BY JURY

As a sequel to the Labor day pa-  
rade, Walter A. Ames, vice president  
of the International Association of  
Machinists, and Oliver J. Foster ap-  
peared in police court yesterday to  
answer to charges of disturbing the  
peace of Mrs. Charles W. Oliver, pre-  
ferred against them by Mrs. Oliver,  
whose husband is said to be a strike-  
breaker employed at local shops.  
Both defendants entered pleas of not  
guilty and demanded a jury trial.

to \$5,000, according to the class and  
the location of the staterooms.

## ARRIVES AT NEW LONDON

New London, Conn., Sept. 6.—Pres-  
ident Taft arrived at New London on  
the presidential yacht Mayflower to-  
day.

President Taft was accompanied by  
Mrs. Taft, Mrs. Thomas K. Mc-  
Lachlan of Pittsburgh and Miss Mabel  
Boardman of the American Red Cross.  
Charles D. Hilles and George R.  
Sheldon of the Republican national  
committee, remained on the Mayflow-  
er.

The president, still suffering with  
his ankle, had to walk a short dis-  
tance to an automobile and upon  
reaching his hotel a chair was quick-  
ly provided for him in the lobby. His  
ankle seemed much better, however,  
than when he left Washington.

TEDDY WARNS VOTERS.

Grand Forks, N. D., Sept. 6.—I do  
not believe that the American people  
will put into power a party which  
enunciates principles which must be  
immediately repudiated by the party's  
candidate when he goes before the  
people," said Colonel Roosevelt here  
today in speaking of the Democratic

party and Woodrow Wilson. To col-  
onel also attacked the political lead-  
ers who have espoused Progressive  
principles, but who have retained  
their old political connections instead  
of joining the Progressive party.

The auditorium here was filled with  
a friendly crowd when Colonel Roose-  
velt arrived to make his first address  
of the campaign in North Dakota.

"If the Democratic party's plank on  
the tariff says what that party doesn't  
mean, then we can't trust any prom-  
ise it makes on any subject," said the  
colonel. "If it does mean what it says  
on the tariff we'll have the tariff  
abolished, not only with Canada, but  
with every other country. You are  
opposed to Canadian reciprocity in  
this state, and on this point alone you  
should be with the Progressives."

Case Dismissed—The suit of Wil-  
liam J. Critchlow against George E.  
Cross has been dismissed on motion  
of the attorneys for the plaintiff.

Frank Grosbeck, traveling freight  
agent of the Denver & Rio Grande,  
was in Ogden today on business.
